teachers, administrators, and school board members in the Spirit Lake Community School District, and to report on their participation in a unique Federal partnership to repair and modernize school facilities.

This fall marks the 10th year of the Demonstration Construction Towa. Grant Program. That is its formal name, but it is better known among educators in Iowa as the program of Harkin grants for Iowa public schools. Since 1998. I have been fortunate to secure a total of \$121 million for the State government in Iowa, which selects worthy school districts to receive these grants for a range of renovation and repair efforts everything from updating fire safety systems to building new schools or renovating existing facilities. In many cases, this Federal funding is used to leverage public and/ or private local funding, so it often has a tremendous multiplier effect in a local school district.

The Spirit Lake Community School District received a 2002 Harkin grant totaling \$953,709 which it used to help build a five classroom addition to the middle school for science, art, industrial arts, family and consumer science and for renovations at the high school. The district also received a 2000 fire safety grant for \$69,300 to make improvements at the elementary and middle schools. These projects were part of a comprehensive facility plan developed by a committee of local citizens and the Federal grants have made it possible for the district to provide quality and safe schools for their students

Excellent schools do not just pop up like mushrooms after a rain. They are the product of vision, leadership, persistence, and a tremendous amount of collaboration among local officials and concerned citizens. I salute the entire staff, administration, and governance in the Spirit Lake Community School District. In particular, I would like to recognize the leadership of the board of education—president Beth Will, vice president Ann Goerss, Cliff Garvey, Scott Wicks and Todd Hummel and former board members Carol Schultz. Dr. Craig Newell, Mike Donahue and John Van Dyke. I would also like to superintendent Douglas recognize Latham, former superintendent Tim Grieves, high school principal Steve Ratzlaff and facility director Jim Tirevold

As we mark the 10th anniversary of the Harkin school grant program in Iowa, I am obliged to point out that many thousands of school buildings and facilities across the United States are in dire need of renovation or replacement. In my State of Iowa alone, according to a recent study, some 79 percent of public schools need to be upgraded or repaired. The harsh reality is that the average age of school buildings in the United States is nearly 50 years.

Too often, our children visit ultramodern shopping malls and gleaming sports arenas on weekends, but during the week go to school in rundown or antiquated facilities. This sends exactly the wrong message to our young people about our priorities. We have do better

That is why I am deeply grateful to the professionals and parents in the Spirit Lake Community School District. There is no question that a quality public education for every child is a top priority in that community. I salute them, and wish them a very successful new school year.

## WEBSTER CITY COMMUNITY EDUCATION

• Mr. HARKIN. Mr. President, in Iowa and across the United States, a new school year has begun. As you know, Iowa public schools have an excellent reputation nationwide, and Iowa students' test scores are among the highest in the Nation.

I would like to take just a few minutes, today, to salute the dedicated teachers, administrators, and school board members in the Webster City Community School District, and to report on their participation in a unique Federal partnership to repair and modernize school facilities.

This fall marks the 10th year of the Iowa Demonstration Construction Grant Program. That is its formal name, but it is better known among educators in Iowa as the program of Harkin grants for Iowa public schools. Since 1998, I have been fortunate to secure a total of \$121 million for the State government in Iowa, which selects worthy school districts to receive these grants for a range of renovation and repair efforts—everything from updating fire safety systems to building new schools or renovating existing facilities. In many cases, this Federal funding is used to leverage public and/ or private local funding, so it often has a tremendous multiplier effect in a local school district.

The Webster City Community School District received two Harkin fire safety grants totaling \$186,126 which it used to help replace windows at two elementary schools and to replace fire alarms, install safety glass and make other improvements throughout the district. The Federal grants have made it possible for the district to provide quality and safe schools for their students.

Excellent schools do not just pop up like mushrooms after a rain. They are the product of vision, leadership, persistence, and a tremendous amount of collaboration among local officials and concerned citizens. I salute the entire staff, administration, and governance in the Webster City Community School District. In particular, I would like to recognize the leadership of the Board of Education—Craig Loffredo, Judy Maubach, Loween Getter, Dan Ryherd and Pam Hayes and former board members Paul Hess, Dr. Subhash Sahai, Rick Rasmussen and Jack Foster. I would also like to recognize superintendent Mike Sherwood, director of building and grounds David Orton and former superintendents Dennis Bahr and Kav Forsythe.

As we mark the 10th anniversary of the Harkin school grant program in Iowa, I am obliged to point out that many thousands of school buildings and facilities across the United States are in dire need of renovation or replacement. In my State of Iowa alone, according to a recent study, some 79 percent of public schools need to be upgraded or repaired. The harsh reality is that the average age of school buildings in the United States is nearly 50 years.

Too often, our children visit ultramodern shopping malls and gleaming sports arenas on weekends, but during the week go to school in rundown or antiquated facilities. This sends exactly the wrong message to our young people about our priorities. We have do better.

That is why I am deeply grateful to the professionals and parents in the Webster City Community School District. There is no question that a quality public education for every child is a top priority in that community. I salute them, and wish them a very successful new school year.

## MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

## EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the Committee on Armed Services.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT ON THE CONTINUATION OF THE NATIONAL EMERGENCY THAT WAS ORIGINALLY DE-CLARED ON SEPTEMBER 23, 2001, WITH RESPECT TO PERSONS THREATEN WHO COMMIT, TO COMMIT, or orSUPPORT RORISM-PM 64

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a
